Re: MB Docket No. 10-56

Dear Chairman and Commissioners:

As a County Commissioner in El Paso County, Colorado, I am writing to voice my support for Comcast's proposal to acquire NBC Universal. Comcast is an important member of our business community and a reliable service provider to residents.

I was first elected as an El Paso County Commissioner in 2004. Prior to my election, I served on Colorado Springs City Council, Colorado's Travel and Tourism Authority, and the boards of many other civic organizations. Throughout these experiences I have come to recognize a good corporate citizen when I see one, and Comcast is just that.

An employer of thousands throughout Colorado, Comcast is a stable and growing company in difficult economic times. I very much appreciate that its employees here are provided with solid wages and benefits, and that our businesses and homes can benefit from the state of the art telecommunications services Comcast provides, giving them a leg up in our increasingly global marketplace.

I am also fully aware and deeply appreciative of Comcast's commitment to local programming in the public interest. I have appeared numerous times on Comcast's Newsmakers program to discuss matters of public policy and Comcast's public service announcements provide valuable information on local issues, events, programs and

RE: MB Docket No. 10-56

Dear Chairman Genachowski and Commissioners:

Our mission at the United Way of Central Illinois is to inspire the next generation of community leaders – young people who will one day inspire change in the world around them by creating a collaborative atmosphere responsive to a grand diversity of voices. We regularly encourage involvement from local leadership, including businesses in and around our community. One of our most reliable supporters is Comcast. Comcast's cable, voice and Internet services – and its dedicated community volunteers – are an important part of our lives in Central Illinois and its across-the-board success is an inspiration for the many future business leaders that we teach.

Comcast's culture of community involvement inspires all aspects of its business, whether it is direct investment in local initiatives, providing the latest and greatest technology for customers, or encouraging employees to become active volunteers and local contributors. Right here in Central Illinois, Comcast employees pledged over \$16,000 during 2008 and 2009 to our local United Way organization. In addition, we were the recipients of Comcast Foundation grants over the last two years. These grants are important as they allow us to expand our efforts and invest in new initiatives to better serve families in need. Comcast also helped us to produce a segment for its Newsmakers program, which airs on a local cable channel. The Newsmakers segment was an exceptional opportunity enabling us to reach into a large number of households and directly introduce our services. Thanks to Comcast, spreading our message has never been easier.

Comcast's innovative programs and services are an indispensable tool for many area consumers and it's the company's employees remain an inspiration for the children we serve. I am confident Comcast will continue to be a successful and valued partner for the communities of Central Illinois. I hope you will consider Comcast's long positive track record as evidence that the company's civic leadership will continue in partnership with NBC Universal.

Sincerely,

John P. Kelker
President

Re: MB Docket No. 10-56

Dear Chairman Genachowski:

I understand that you are reviewing the proposed transaction of Comcast and NBC Universal. As a citizen, a user of Comcast's services, and a former colleague in public service, I encourage you to support this venture.

I have worked alongside Comcast as a former member of the Boston City Council, as that body's president from 2002 until 2007, and as a member of the Boston business community, and I consider Comcast to be one of our city's most committed business partners and innovative corporations.

Not only is Comcast a solid jobs provider in the City of Boston, but its core services support entrepreneurs and industry participants in our state, allowing them to be more competitive and, ultimately, more successful. Joining with NBC Universal would most certainly allow Comcast to further innovate and to provide additional exciting opportunities for our business community. I agree with many experts that the combination of assets will create a leading media and entertainment company with the proven ability to deliver to the highest quality entertainment to its subscribers.

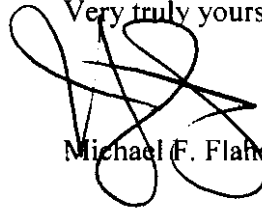

Because of my ten years spent on the Boston City Council, I know firsthand what Comcast has done for the communities and residents of Boston. Its technical operations facility is a Boston employment center and economic engine for the city. Additionally, Comcast has always been extremely responsive to the needs of Boston through charitable giving and volunteer activities, such as its longtime support of various civic and community organizations.

As you review the transaction pending before the FCC, please keep in mind that there is a great deal of support for this merger in Boston and in Massachusetts. I speak for many in saying we recognize that Comcast has a great opportunity to grow, and we are encouraged by the progress that will result from this transaction.

Very truly yours,

RE: MB Docket No. 10-56

Dear Chairman Genachowski and Commissioners:

I am writing to express my support for the Comcast-NBCU transaction, and to encourage the Commission to approve it. As the Chairman of the Michigan Senate's Energy Policy and Public Utilities Committee, I am focused on the best interests of all our residents, but most importantly on ways to jump-start our economy. Comcast, as a leader in broadband innovation, has helped bring jobs and 21st century technology to all Michiganders.

Comcast has made a significant investment in broadband infrastructure. This has been a boon to small business owners looking to cut their business costs and expand their services into new markets; certainly, selling goods and services outside of Michigan means piping in out-of-state revenues. And I note that well before the broadband revolution, Comcast has been a major employer in Michigan, and it continues to be so.

Technology and innovation continue to drive economic growth, and we in Michigan know the importance of companies that can create both new jobs and new opportunities for businesses. I am confident that Comcast will continue to be an asset to the community as it grows.

Sincerely,

BRUCE PATTERSON

Re: MB Docket No. 10-56

Dear Chairman Genachowski and Commissioners:

My name is Richard Raether and I am the Artistic Director for the Artists' Ensemble Theatre in Rockford, Illinois. On behalf of our theatre, I would like to express our organization's support for the partnership of Comcast and NBC Universal. Comcast has been a wonderful partner to our organization and the arts in the Rockford area.

The Artists' Ensemble Theatre is a group of artists and actors, based at Rockford College, who came together in 2004 through a mutual love and commitment of spreading theatre and the arts to our community. Each year we present four productions, one for each season, with the goal of exposing audiences to a variety of types of theatre. Comcast supports us in this mission by making it possible to reach audiences well beyond our stage.

For the past five years, Comcast has produced "Center Stage," a thirty-minute program highlighting performances at our theatre. Comcast airs this program on the city's public access station. The show also promotes other non-profit organizations, including the Rockford Dance company, the Riverfront Theater and the Rockford Area Arts Council. By teaming up with other groups, we can better inform the public of who we are and what we do, and of the thriving arts community in our area. It is also a wonderful opportunity to promote diversity throughout our community, which the Artists' Ensemble Theatre tries to do by offering a variety of productions on a wide range of topics.

Comcast's commitment to the Rockford community, especially our local arts organizations, is steadfast and greatly appreciated by us all. We are excited by what a Comcast and NBC Universal partnership may yield and we encourage the FCC to approve this union.

Sincerely,

A handwritten signature in black ink that reads "Richard Raether". The signature is fluid and cursive, with the first name being more prominent.

Re: MB Docket No. 10-56

Dear Chairman Genachowski and Commissioners:

On behalf of my organization, Rockford MELD, thank you for giving me the opportunity to express my strong support for the pending union of Comcast and NBC Universal. Comcast is one of our most supportive program partners and it assists us in providing resources and guidance to Illinois' young families.

MELD is an organization devoted to helping young families grow and thrive by providing education, social services and housing. As you can imagine, this is a costly and large scale undertaking. Last year, we had to turn away 243 young mothers and children because our shelter was filled.

As Director of Development, it has been my pleasure to work closely with Comcast. We host the Tailgate, Tackle and Touchdown sports celebrity event and the July 4th Classic Memorial 8K Run, 2 Mile Run and Fun Walk as our primary fundraisers. Comcast annually supports these events by donating airtime, public service announcements and interviews for our leadership. This is a tremendously significant benefit for us as we now have greater visibility and a larger donor base as a result of Comcast's support.

Comcast has also promoted our programs on its local public access channel for the past 10 years. With this support, Comcast is enabling young families to grow and succeed. They and we are grateful. If more companies were as generous as Comcast, we would not have to turn anyone away.

Comcast has been and continues to be a wonderful local partner to Rockford MELD and we support any opportunity for the company to succeed. I hope the FCC will keep our perspective in mind upon reviewing the Comcast and NBC Universal partnership proposal.

Sincerely,

Karen Tilly

Re: MB Docket No. 10-56

Dear Chairman Genachowski:

On behalf of the members of the Will County Governmental League (WCGL), I am writing to provide my support of the Comcast and NBC Universal partnership proposal and to commend Comcast for its long-time commitment to our organization and Will County, Illinois.

WCGL is a council of government comprised of 32 municipalities and the County of Will, Illinois. WCGL provides a forum for members to discuss and resolve regional issues, such as transportation, legislation, and intergovernmental relations.

As the Executive Director of WCGL, I am fortunate to work closely with Comcast's Noreen Ligino-Kubinski and Tony Signorella, whose expertise and dedication enhance our membership. Comcast also sponsors our events throughout the year and actively supports fundraising activities, public works projects and the non-profit programs that are important to residents throughout Will County.

Comcast has played a role in the success of Will County and WCGL is encouraged by what a partnership of two such highly regarded organizations as Comcast and NBC Universal could achieve. We therefore recommend that the FCC approve the proposed union of Comcast and NBC Universal as expeditiously as possible.

Sincerely,

Steve Quigley, Executive Director

Re: MB Docket No. 10-56

Dear Ms. Dortch,

I am writing to express my enthusiastic support for the proposed deal between Comcast and NBC Universal. Since 2006, I have served the people of Michigan's 18th District. Now, more than ever, I am focused on diversifying and strengthening our state's struggling economy.

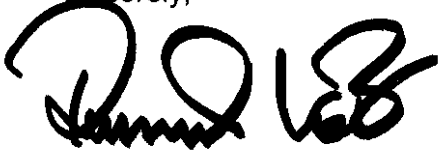

My district encompasses the city of Westland where Comcast currently has two major facilities. Together, the network operations center and digital voice center employ more than 130 people. The company has invested heavily here and is providing the kind of new technology jobs necessary to re-build our economy. High-speed broadband, digital voice services and multi-platform media are building blocks for a new era of telecommunications. The more Michiganders that have access to those services and are trained to work in the industry, the better our employment and business prospects will be.

In addition to providing good jobs and state-of-the art internet, phone and cable services, Comcast has been, and continues to be a positive corporate partner in our communities. For example, on Comcast Cares Day, thousands of company volunteers work on dozens of community projects throughout the state and region. As well, I recently was involved in a service event at the Purple Heart Foundation who is supported by Comcast. Purple Heart serves Veterans in need and as Chairman of our state's subcommittee on State Police and Military and Veterans Affairs, supporting these heroes is especially important to me.

No. of Copies rec'd 0+4

RE: MB Docket 10-56

Dear Chairman Genachowski:

I write you today to support the Comcast and NBC Universal business venture currently before you for review. Comcast is a solid jobs provider in my Michigan State Senate District and a great partner to many local charities.

Comcast is a major provider of jobs in my district – and a company that continues to grow despite the tough economy. It's harder than it has been in decades for people to find and maintain quality jobs and I appreciate that Comcast provides good pay and benefits to hundreds of my constituents. As the unemployment rate continues to climb here, I am thankful that so many of our households can rest easy knowing that Comcast is operating a stable and growing business.

Comcast has also become a major presence in the non-profit and public interest arenas all over Michigan. Since 2003, the company gives back to both large and small charitable organizations in my district, including the Berrien County Courthouse Square in Berrien Springs, MI; Cass County Council on Aging in Dowagiac, MI; Benton Harbor/Benton Twp. Senior Services Center in Benton Harbor, MI; Harbor Habitat for Humanity in Benton Harbor, MI and Lest We Forget Veterans group in Benton Harbor, MI.

Re: MB Docket No. 10-56

Dear Chairman Genachowski:

On behalf of the people of Calhoun and Jackson Counties in Michigan, I am writing to express my support for the partnering of NBC Universal and Comcast. Comcast is a dependable and respected company serving my Senate District and I am excited by the innovation a joining of the two such entities can facilitate.

Comcast has undertaken a significant investment in perfecting broadband and cable and creating the infrastructure improvements to expand its services and now the company is able to provide hundreds of cable channels, endless on-demand options, high speed internet and reliable phone service to thousands of local households. Our people, schools, institutions, businesses and quality of life have benefited because of Comcast's investments.

Technology aside, I have also had the opportunity to witness firsthand Comcast's charitable outreach in the community. Two important organizations in my district, the Martin Luther King Community Center in Jackson and the Battle Creek Urban League, are recent recipients of support from Comcast. I have also had the opportunity to join Comcast employees in their volunteerism on Comcast Cares Day. This is a great annual event that promotes giving back and the power of individual good works.

I certainly hope the FCC will consider all of the local investments Comcast has made – including the charitably oriented ones – to improve communities in Michigan and beyond. If Comcast brings even a fraction of its current commitment and creativity to the partnership with NBC Universal, I believe we will see some amazing results.

Sincerely,

Senator Mike Nofs
Michigan State Senate

Re: MB Docket No. 10-56

Dear Chairman Genachowski:

At a time when a deficit of tolerance too often exists either in America or in international relations, I wanted to take a moment to express my interest and concern regarding the Commission's consideration of the proposed merger between Comcast and NBC-Universal. Why, you might ask, would this particular merger be of concern to our organization? The answer is simple.

As Chairman and Co-founder of the American Arab Chamber of Commerce and a life-long businessman, I've again and again learned firsthand the critical role played by the private sector in building cross-cultural bridges throughout our nation of immigrants. Because of the positive steps I've personally seen Comcast take with regard to these goals, I am a firm believer in the notion that this deal will positively serve America's diverse consumers and businesses.

Unlike many companies with large numbers of Arab-American customers, for example, Comcast recently took the rare step of opening a bilingual call system to address the customer-service needs of Arab-Americans in both a culturally and linguistically sensitive fashion. Comcast actively worked with our community in accomplishing this important achievement. I only wish more American corporations would follow Comcast's lead and realize that this sort of positive outreach is not only good citizenship but good for the bottom line. Here, I have no doubt the new Comcast-NBCU will continue in this proud tradition.

I urge you to give favorable consideration to this historic transaction in the hope that Comcast's continued growth and success will be an inspiration to others – not only as a successful creator of high quality American jobs but as a leading distributor of multi-lingual programming and as an exemplar of cultural sensitivity in the field of customer outreach.

Most sincerely,

Ahmad Chebbani

Re: MB Docket No. 10-56

Dear Chairman Genachowski,

We understand that some are concerned about how the proposed merger between Comcast and NBC Universal will affect the joint entity's commitment to the local communities they now serve. Members of the Dearborn Chamber of Commerce have appreciated Comcast's long-standing commitment to local Dearborn businesses. We believe that Comcast's continued investment in our community speaks volumes about how a joint Comcast/NBCU company would approach local issues.

The Dearborn Chamber of Commerce is committed to supporting the local business community by creating networking events for its members, engaging in community outreach, generating economic development initiatives, attracting tourism, facilitating media coverage, developing educational resources and reaching out to elected officials regarding local issues. During these difficult economic times, local businesses must seize every opportunity to survive and succeed. We hope that, by serving as a kind of clearinghouse for new ideas and a resource for business opportunities, we can help Dearborn businesses emerge from the current recession to greet a stronger, brighter tomorrow for our community.

Since acquiring the cable system in Dearborn in 2001 Comcast has been a top supporter of the Dearborn business community, supporting the Chamber through membership, sponsorships, partnerships on projects, and with service on the Chamber Board of Directors. Not only is Comcast one of the largest local businesses in Dearborn, providing thousands of residents with Internet and TV services, the company has also invested heavily in the business community, generating opportunities for a slew of other local companies. Comcast's relationship with Dearborn has truly lifted all boats.

As the head of the Dearborn Chamber of Commerce, I am constantly seeking to recruit new businesses to our city and would be pleased if they all contributed even a fraction of what Comcast has done here over the years. I hope, in some small way, my experience will help you evaluate the proposed Comcast/NBCU joint venture and its impact on local economies.

Sincerely,

Jennifer Giering

Re: MB Docket No. 10-56

Dear Chairman Genachowski:

As the Executive Director of the West Central Municipal Conference, I am writing you to support Comcast and its partnership proposal with NBC Universal. In west Cook County, Illinois, we value Comcast's investment in our communities.

The West Central Municipal Conference (WCMC) was founded in 1980 to serve local municipalities. Today, 37 communities located in Cook County participate, and our current population of more than 550,000 is diverse and growing. Our mission is to foster municipal cooperation and communication, develop solutions, and advocate common interests at the county, state and federal levels of government.

Comcast is a longtime Affiliate Member of the WCMC. Comcast supports our annual initiatives, sponsors charitable events – all of which positively impact the quality of life in the communities we represent.

Furthermore, Comcast stands out as a member of the business community in west Cook County. The company employs hundreds of local residents, provides valuable services such as high-speed Internet that keep our businesses competitive and connected, and plays an active role in supporting and growing the infrastructure of west Cook County. In fact, the company has invested billions all around the state of Illinois to improve our communications infrastructure and public technology offerings.

At the WCMC, our focus is the future. Quite simply, our objective is to provide a mechanism by which communities can coalesce and cooperate in the public interest. Comcast is instrumental in this vision. We firmly believe that Comcast's proposal to join with NBC Universal will further strengthen West Cook County and the people of Illinois. Therefore, we ask the FCC to approve the proposal before you.

Sincerely,

Richard F. Pellegrino

RE: MB Docket Number 10-56

Dear Chairman Genachowski:

I understand you are reviewing the proposed partnership of Comcast and NBC Universal. I write to share with you my favorable impression of this team. I believe that together, these companies will lead us into a new high-tech economy.

As Mayor of Medford, Massachusetts, and Chair of the Advisory Board of the National League of Cities, I work to provide opportunities for American families. For years, Comcast has been an exceptional partner for communities all over the country including Medford. Its Comcast Cares Day program is one of a kind, encouraging employees to join their community for a day of service. By engaging hands-on with the customers it serves, Comcast better understands the needs of every unique community. In addition to this, Comcast's support of non-profits all over the country allows these groups to expand and enhance their services.

Comcast is a national leader in both cable and Internet and is a strong competitor in the voice market. The company's emphasis on innovative ideas has kept Comcast ahead of the curve. Despite the current challenging economy, Comcast continues to grow and to develop new services. I am confident with NBC Universal on the team, the great ideas

and programs will continue, as will the commitment to local communities and the organizations within.

While you review the new partnership, I hope you will consider the exceptional leadership that has been demonstrated by Comcast.

Sincerely,

RE: MB Docket 10-56

Dear Chairman and Commissioners:

I am writing to you today regarding your consideration of the NBC-Universal joint venture proposed by Comcast and GE. As an employee of Comcast, I feel it is important for you to include in your consideration the positive impact that Comcast has on the lives of its employees.

I have been with Comcast since January of 2003, and have found this to be a company that I both greatly enjoy and believe in. Their consistent show of respect for their employees, in terms of benefits, wages, training, work environment, fairness, diversity, and etc., continues to amaze me. The company feels like a family, and I am convinced that, at the highest levels, they continue to keep their employees best interests at heart. I am also inspired by their focus on community involvement, even to the degree of empowering each of us to reach out personally via Comcast Cares Day.

I believe that employees' lives will continue to improve, once Comcast acquires NBC Universal. I appreciate your consideration of each Comcasters' personal and professional growth and success, as you evaluate this proposed joint venture.

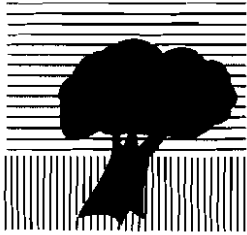

I urge you to support the joint venture

Sincerely,

Mike Mason

Re: MB Docket No. 10-56

Dear Chairman Genachowski:

I am the Associate Director of the DuPage Mayors and Managers Conference (DMMC). In this position I manage the DMMC's Corporate Partner program. DMMC is a council of 33 municipal governments located in DuPage County, Illinois – about 20 miles west of Chicago. The organization is comprised of elected and appointed officials dedicated to addressing public policy issues. Comcast is one of DMMC's key corporate partners. Based on the very positive relationship I have experienced with Comcast, I respectfully encourage your support of the proposed Comcast-NBC Universal venture.

DMMC's Corporate Partner program is open only to companies which demonstrate a track record as a good corporate citizen, support and offer expertise in areas that contributes to our mission, and provide top-level corporate involvement in substantive programs. Comcast fulfills these expectations and is a top corporate sponsor. Through this partnership, I have learned Comcast supports many of the same goals as DMMC including giving a platform to local leaders on their Newsmakers program.

I believe Comcast should be permitted to move forward with its planned partnership, and I am confident the company will continue to exhibit solid dedication to corporate citizenship after the partnership deal is complete. Thank you for your consideration.

Sincerely,

Michael Mulcrone
Associate Director

RE: MB Docket No. 10-56

June 8, 2010

Dear Chairman Genachowski and FCC Commissioners,

The purpose of this letter is to voice my support for the joint venture of Comcast and NBC Universal. Comcast is a local partner that has made significant contributions to the Porter County Career and Technical Center and our community in Valparaiso, Indiana.

As director of career and technical education for Porter County schools, I administer approximately 1,000 students enrolled in 35 courses, 10 of which are at our Career Center and the remainder spread across 12 other sites throughout the county. I also serve as the principal of the Porter County Career and Technical Center and its staff of 15 teachers and approximately 450 students. My job requires extensive communication and participation with area businesses, labor unions, employers, students, and parents.

It is in this role that I witnessed first-hand Comcast's commitment to the Valparaiso community.

Comcast has donated valuable production equipment for use in our student training. Our programs empower young people to make meaningful and appropriate career choices, and I believe that the economic and cultural health of our communities is stronger because of companies like Comcast that recognize the value of our work and help us in preparing students for the workplace.

Both Comcast and NBC Universal have a history of active engagement with local communities and the organizations that serve those communities. In fact, CNBC honored one of Porter County's students recently for video production excellence.

I am happy to vocalize my support for two companies that have maintained a solid, local commitment in Porter County. I believe it is likely that in their joining, Comcast and NBC Universal will be better suited to do even more for the people and communities of Indiana.

Sincerely,

Jon Groth

RE: MB Docket No. 10-56

Dear Chairman Genachowski and Commissioners:

I am writing to express my support for the Comcast-NBCU transaction and to encourage the Commission to approve it.

Comcast is a national leader in broadband innovation and has helped bring jobs and better technology to New Jersey.

In addition, Comcast's investment in their network has expanded their services for all consumers.

Most importantly, America's economy is more reliant than ever on technology and innovation to grow and compete with the rest of the world. Allowing the two great American companies in this transaction to continue their long history of job growth and innovation is, in my opinion, in the best interest of this country.

For those reasons, I respectfully ask that you support Comcast's requests to join with NBCU.

Thank you.

Sincerely,

Betty P. Critchley

RE: MB Docket No. 10-56

Dear Chairman Genachowski and Commissioners:

We write to you to support the Comcast and NBC joint venture. We feel that Comcast believes in the mission of our organization and has improved the lives of children in the Decatur region through volunteerism as well as offering support that will help our youth develop positively and prepare them for an exciting twenty-first century future.

There are Boys and Girls Clubs all over the country who benefit from our mission of promoting and enhancing the development of young people by instilling a sense of competence, usefulness, belonging and influence. We attempt to make sure that all children have a place they can feel safe while constructively learning through educational activities.

We know from our experience that Comcast shares the goals of our organization. The company has supported our educational efforts financially and with volunteers. Moreover, it has also made significant additional contributions to sister community programs, such as the Macon County Community Health Foundation.

We feel that Comcast's partnership with NBC Universal also could be beneficial in terms of progressive children's and educational programming – assisting both children and their parents to continue learning vital skills in the home. Comcast is already a leader in providing quality family television options and leads the way in partnering with innovative organizations, such as IKeepSafe, to educate youth on Internet safety.

We hope you will join us in support and look forward to a productive future with Comcast.

Sincerely,

Walter Smith
Executive Director

Re: MB Docket No. 10-56

Dear Chairman Genachowski:

I understand you are in the process of determining whether to approve Comcast's proposed partnership with NBC Universal. As you consider this transaction, I thought it would be useful for you to get a local perspective on Comcast's record of support for communities. As the Executive Director of the South Hills Area Council of Governments (SHACOG), I can tell you that Comcast has demonstrated a consistent commitment to investing in the Pittsburgh, Pennsylvania area.

SHACOG, incorporated in 1973, is a voluntary organization of municipalities located primarily in the southern suburbs of Pittsburgh. SHACOG coordinates and administers programs of regional interest that benefit member municipal governments, including a cable franchise agreement with Comcast which serves 11 member municipalities.

As Comcast has expanded in our area it has often made commitments to our member municipalities. Comcast has consistently lived up to the commitments it has made to the South Hills communities it serves. It has delivered on its promises of system enhancements, including improved cable service. Additionally, Comcast gives back to our communities by providing courtesy services to our local municipalities, schools and libraries. Comcast sponsors and participates in events in our member municipalities, including Community Days, fundraising events at local volunteer fire departments, and much more.

Comcast has also become a key employer that provides quality jobs with exceptional benefits to over one hundred people who live and work in SHACOG member municipalities. This is perhaps more important now than ever.

As you consider the merits of the proposal before you, I ask that you weigh the contributions Comcast makes every day to the hundreds of thousands of people living in Pittsburgh's southern suburbs.

Sincerely,

Stanley Louis Gorski
Executive Director
